Mr. Horn is a Painter by profession, and invites public attention to his style of painting Photographs. These pictures EXCEL THE FINEST PAINTING UPON IVORY, and while they equal the works of the Masters in their delicacy and richness of coloring, far surpass them in exactness of delineation and PERFECT FIDELITY TO FEATURE, expression and nature.

Friends, relatives and lovers may now rejoice in the possession of perfect likenesses, at a price that places them in the reach of all. Our painted Photographs are warranted to be all that is here represented, and we guarantee them to preserve their color without fading, as long as paintings on ivory.

Trial of the Challenge Safe.
REPORT OF THE COMMITTEE.

We, the undersigned, citizens of this City, having acted as a Committee on the trial of one of the Challenge Safes manufactured by Hornbach & Wagner, of this city, yesterday afternoon, certify by this that said Safe was placed on four small brick layers, twenty inches from the ground, surrounded by a circular wall about three inches distant from the Safe, and reaching more than a foot above it, and covered from all sides as well as from top and bottom by wood, thus filling the whole space between the Safe and the wall and some way upwards, with just four cords of wood. We having inspected the books, papers and bank bills that were placed in the Safe, fire was set to the pile of wood, and owing to a quantity of turpentine which had been poured on the wood-pile, the whole was in a short time all in a blaze. The flames then continued raging for an hour and a half around, above and below the Safe, melting all a solid brass knob of an inch and seven-eighths in thickness, and bringing the Safe to a red-hot heat, when we, the Committee, considering [illegible] and one that a safe is unusually subjected to [illegible] conflagration, concluded to let an engine play on it. This was quickly brought in execution, the stream of water being directed against the Safe, and after it had thus been cooled off and the flames extinguished, it was attempted to open it, which after some little time was effected, when in our presence the Safe was opened, and to the astonishment of all persons present, the articles deposited inside including $10 in bank notes belonging to Mr. Ilsley, were found uninjured by fire, and only some of them slightly damaged by the steam created by extinguishing the flames.

Fully convinced that the test said Safe was subjected to was a fair, satisfactory one, and much severer than any ever before given in this city, we take the opportunity of recommending the Challenge Safes of Hornbach & Wagner to all who may stand in need of a safeguard for their books, papers and other valuables, as a perfect security against all the depredations of fire.

NEWS OF THE MORNING.

We have further details of the news by the *Baltic* and particulars of the Filibuster defeat in Central America. Walker's troops seemed to have run at the earliest opportunity.

Col. Lane of Kansas, has called Senator Douglass to account for the contemptuous and insulting terms which the latter used in opposing the reception of the Kansas Legislative Memorial. It remains to be seen what "the Little Giant" will do in the premises.

Speaker Banks positively declines being a candidate for the next Presidency, so that our Wisconsin Know Nothings will have to look up another man.

Quebec has finally been fixed upon as the Capital of Canada. The river St. Lawrence is open and Steamboats running part of the way.

Another interesting letter from our European correspondent will be found in to-days paper. He writes from Alexandria, Egypt, and will soon give us notes of his voyage up the Nile.

The New York Market shows a decided improvement under the influence of the *Baltic's* news. Whether it is to be permanent, or not, is a question about which operators differ widely,

Our Marine List this morning shows that Commerce is already active on this Lake. With the opening of the Straits—which we look for within a fortnight—the season promises to become a very busy one.

Our Local and Advertising columns contain many items of interest. It will be seen that the movement in Real Estate continues brisk and prices are steadily advancing.

The Apology of the State Canvassers.

George B. Smith, E. H. Janssen and Alexander T. Gray, the Members of the Board of State Canvassers who counted Mr. Barstow into office and gave him a certificate accordingly, occupy several columns of the *Argus* in an effort to defend their conduct and impeach the Judgment of the Supreme Court. They affect to review, fairly and impartially, all the "supplemental" returns, counted by them and then submit the case thus made up to the People. The *News* of yesterday, publishes this statement and pronounces it "able, clear and triumphant." How much it deserves this commendation, or is entitled to the respectful consideration of the public, a single sample will show. The late convassers conclude their review thus:

> Having thus presented a statement of the grounds and particulars of our canvass *in all the cases about which the question was made before the court, or discussion has been had elsewhere*, we submit the matter to the people who can judge whether we acted according to law or not.

So far from having touched upon "all the cases," questioned in Court, or discussed elsewhere, Messrs. Geo. B. Smith and Co., are particularly careful to avoid *every allusion* to the very ones in which the grossest frauds and forgeries were charged. No reference whatever is made in this defence to the "supplemental" returns from the famous localities of Spring Creek, Bridge Creek and Gilberts Mills, which furnished considerably more than the declared official majority for Barstow, while no other answer is made to the circumstantial charge (since proved by abundant, unimpeached and unanswerable evidence) that the returns from Town 25, Range 10, was an *entire forgery*, and that from Waupacca Falls grossly fraudulent, than that the Waupacca County Canvass was properly certified to the Board and therefore counted by them. And this tacit confession—for such it is—of all that has been charged in relation to the votes and returns from these precincts, is characterized by the Barstow prints as an "able, clear and triumphant vindication of the State Canvassers!" If there were no other single circumstance against them, this continued and suspicious silence in regard *to every one of the returns* about which the charge of Fraud and Forgery has been made and this too in face of their own impudent vaunt that they had presented a statement as to "all the cases," questioned in court, or discussed out of it, will stamp their defence, in the minds of honest and reflecting men of all parties, as entitled to no more weight or authority than the fraudulent certificate which they gave to Wm. A. Barstow. No such pettifoggers plea will avail to reverse the deliberate decision of the Supreme Court, or to set aside the verdict pronounced by the People.

Small Business in the U. S. Senate.—On the 14th instant, Senator Harlan, of Iowa, presented the petition and affidavit of Gen. Lane, setting forth the facts about the Kansas Legislative Memorial, which Gen. Cass, with his characteristic double dealing, first presented and then withdrew. A sharp debate ensued, and the Senate, to its discredit, *refused* to receive the petition, by the following vote:

Yeas—Messrs. Adams, Allen, Benjamin, Biggs, Bigler, Bright, Brown, Butler, Cass, Clayton, Dodge, Evans, Fitzpatrick, Hunter, Iverson. James, Jones, (Iowa,) Jones, (Tenn.) Pugh, Reid, Rusk, Sebastian, Slidell, Stewart, Toombs, Toucey, Waller, Wright, Yulee.

Nays—Messrs. Collamer, Durkee, Foot, Hale, Hamlin, Harlan, Seward, Sumner, Trumbull, Wade, Wilson.

We regret to see the name of our Senator, Gov. Dodge, on the wrong side of the vote.

A Campaign Paper.—The New York *Tribune* proposes to publish a Semi-Weekly Campaign paper, commencing on the 20th of June and to continue till after election. It will be sent to subscribers at $1.00 per single copy, 10 copies to one address, for $7.50; 20 copies $14.00; and 100 copies $65.

Newspaper Change.—The *News* of yesterday morning contains the formal announcement of the change in the proprietorship of that paper, which has been bruited about the streets for a fortnight past. Messrs. Clason, Huntsman & Benton, the late proprietors, give notice that they have disposed of their entire interest to J. R. Sharpstein, and that the partnership heretofore existing between them is dissolved. It is understood that several other prominent politicians are associated with Mr. Sharpstein in this venture, and that the *News*, under its new management, becomes distinctively a Barstow organ.

No Collingwood Line.—The Buffalo *Commercial* says that the Ontario, Simcoe & Huron R. R. Co. have decided not to put on a line of boats the present year to the upper lake ports. The reasons given are that the Company lost largely last year by their enterprise.

The same paper, however, says that it is understood that a company of Boston merchants in connection with the Syracuse & Binghamton R. R. Co. are making arrangements to put on a line of boats.

Our Republican State Convention.—In answer to the charge that malign influences determined the course of our Republican State Central Committee, in relation to the call for a State Convention, the Madison *Journal* of yesterday speaks thus explicitly:

> The call for the convention now issued was made by the chairman and unanimously concurred in at a meeting of a majority of the State Committee, who are as true Republicans as are to be found in the State.

Legacy.—John Stevens, of Talbot Co., Maryland, left by will $30,000 for the purchase of a vessel for the Colonization Society, to be used for the conveyance of emigrants to Liberia.

Plato and the Sacred Groves—The Rivers Illissus and Cephissus—Annoyances at Piraeus—Again in Smyrna—Austrian Steamers and Cooking—Of Omelets and Potatoes—St. John in Exile—Rhodes—The Statue of the Sun—The Knights of St. John of Jerusalem—The Travelling Pasha—Arrival at Alexandria.

Alexandria, Dec. 24, 1855.

On a bright and beautiful morning near the middle of December, with the air as soft and balmy as with us in June, I turned my back upon Athens for a new field of observation in another continent. On leaving I passed by the site of the ancient Academy. Here was formerly a sacred grove of plane trees, under whose shady foliage Plato was fond of spending much of his time in reading and contemplation. He had a small estate of his own, not far distant, where he lived, in a plain and unpretending style. Over the whole now is seen nothing but a rich grove of Olive trees, whose pale green foliage contrasts strongly with the barren mountains, seen in the distance beyond. Not far from this is the site of the lyceum, which was also surrounded by a park and groves, chequered with walks. One portion was called the enclosure of Apollo and was held sacred. This was embellished by Lycurgus, Pisistratus and Pericles. Here was the school of Aristotle, whose pupils and followers were called Peripatetics, on account of their habit of delivering their lectures orally, while walking in this sacred grove of the Lyceum.

A little further along I passed over the Illissus, a river celebrated in the annals of Athens. It takes its rise in Mount Hymettus, in plain sight, which to the eye is barren and desolate. But from the wild thyme and other flowers, which grow upon its sides, the industrious bee still gathers honey as he did two thousand years ago, when the honey of Attica was known throughout the world. The Illissus, like the river Cephissus, which runs on the west side of the city, and empties itself into the bay of Salamis, after flowing through the gardens of the Academy, is now dry. I am told that whenever these streams, which are here dignified by the names of rivers, are full, most of the people go down to see them, and consider it a great natural curiosity.

At the port of Piraeus, I was again annoyed with that never ending nuisance of the passport system. In all the great countries, such as France, Austria, and the other German governments, there is little or no inconvenience growing out of it; but the moment the traveller gets into a petty kingdom, whose officers can scarcely read or write, and are corrupt at that, he meets with so much difficulty and annoyance that half of the zest and pleasure of travelling are taken away. As my passport had been *vised* by the Minister of Turkey, it was sufficient for the proper authority at Vienna to pass me into the Ottoman dominions; yet when I left Greece, containing a population of about the same number as the State of New York, I was stopped because I had not the *vise* of a consul, who is of course far inferior in rank to a foreign Minister. I explained it to the prefecture of police, but he would neither reason nor give any reasons, only that I could not go on board the steamboat, then lying in the harbor and about to leave, without a fresh *vise*, although I was going to Egypt, another province of Turkey. The consequence was I was obliged to hire a creature, who was hanging about the office, and pay him three dollars to take my passport back to Athens, a distance of four miles, to have another *vise*. Of this money I have not the least doubt, three fourths of it went into his own pocket before night. Another little circumstance happened, which although trivial, afforded me considerable amusement, and illustrates the weakness, stupidity and petty frauds, practised by the officials of this government. Having got my passport, and stepped into a small boat with another gentleman, who was going on board the steamer, an old bandied legged fellow, with red stockings, came along side, and with a little book on the end of a staff, caught hold of our small boat just as we were pushing off. This I learned was one of the custom officials who wanted to examine our carpet bags, for neither of us had any other baggage. He looked like one of those old seedy hatted fellows that may always be seen hanging around Whiskey shops in America, waiting and looking patronizingly around the crowd for some one to invite him up to drink. As we produced our keys, he wanted to compromise by our paying him two coppers each. At this we both burst out laughing in his face. Whether he had any pride left or not, or whether it was the crowd around that smiled at the proposition, I do not know, but he turned his face and seemed to be a little chagrined. If he had said two dollars, or even two shillings, we should not have looked down upon him with such unmitigated contempt; but to offer to sell the character and credit of his official position—for honesty was something he had never heard of in the vocabulary of words—for two red cents was most ludicrous! But we preferred to hand it to him instead of turning our keys, and he soon disappeared in the crowd.

Singular as it may appear, there is no direct line of steamers from Athens to Alexandria. Although I had the intention of visiting the Ionian Islands and sailing from Corfu to the last named city, yet rather than go into another quarantine which would last eight days, I preferred to return to Smyrna and go from there direct. In retracing my steps I might with propriety use similar words to those of the celebrated Capt. Kyd:

' I sailed East, I sailed West,
I sailed all round the Turkey Sea."

After a stay of four days in old Smyrna, I once more embarked on board of an Austrian steamer for Egypt, the land of the Pharaohs, the Pyramids and the Palm tree. I prefer this line of steamers to all others for many reasons, and among them not the least is their safety. It is true they are slow, ill-suiting most of our American go-ahead people, but with me a day's difference in crossing the Mediterranean is of little consequence. There is no better recommendation than the fact that the various lines of the Austrian Lloyd Company, on the whole waters of the Mediterranean, for the last fifteen years, have lost only one steamboat, and not a single human life. As much as people in our own country say against government patronage and in favor of private enterprise, there is certainly one feature that recommends the former—the safety of life and property which it guarantees to the public. As all these matters of conveyance, whether by railroad, diligence, or steamboat, are under the government, competent persons are universally selected to superintend them, and it is very rare indeed that an accident ever occurs.

There is one thing that an American, who like myself has been reared in the rural districts, will be annoyed with, and that is the style and manner of cooking. I have met many however, and particularly those who have resided in large American cities as well as those on this continent, who prefer it to our own. There are four meals each day, one at seven, one at eleven, one at five and one at eight, the two middle ones being the principal meals. Meats and pastry undergo strange metamorphoses, and one is puzzled to know what he is eating. To say nothing of mixtures and compounds, one would think the vegetable world had been ransacked for roots and herbs of singular taste and smell to add to the flavor and taste. A beef steak or mutton chop is announced and one thinks how these taste at home with a gusto that would do justice to these fine dishes. But when they are set before him he finds it difficult to tell which is which from the mustard, vinegar, and other dressings they have undergone whose tastes are unknown to him. An omelet is brought and one would think a cook could not spoil this dish. He commences eating and he finds it in tiers, and between each there is a layer of sugar. If he protests against this manner of cooking he is politely told that it is the French way of making omelets, and that everybody likes them so best.

I know of a distinguished attorney not over a thousand miles from the first Judicial Circuit of our State who says that he is ambitious to get into the Legislature of Wisconsin for one session only, to urge the passage of a bill, the title whereof would read as follows: "An act to prevent women from mashing potatoes." Seeing some very fine Irish potatoes brought on board about the first time I travelled on one of these boats I made calculations for my favorite vegetable. But when they were passed to me they came in so questionable a shape that I inquired how they were cooked. In reply I was informed that they were first boiled, after being pared, then set away until they were cold, when they were sliced up in cold vinegar. But there is one thing that the cook does not spoil because he does not try to improve it, and that is the dessert. Fruits here are not only cheap and plenty, but the finest in the world. They consist of apples, oranges, raisins, dates, and some other kinds, of which there is always a great profusion on the table.

Beaver Dam—Its Progress, Prospects and Wants.

Beaver Dam, April 16th.

Messrs Editors:—The track of the La Crosse Road has got within 1½ miles of our City, and we are anxiously waiting to hear the snort of the Locomotive upon the Depot grounds. Our City is swarming with strangers, who have come from far and near to get a sight of our beautiful place and make arrangements for business. We need mechanics here, as notwithstanding their present abundance, it is difficult to find men enough to do the work.

We need also a hundred horse power engine with shafts running from it in different directions to be let out to different individuals for manufacturing purposes. Any person investing his capital in an undertaking of this kind, will reap an abundant reward. Building is as lively as ever. Some twelve new stores are now under way, and as many more under contract. Three large hotels are going up, capable of accommodating all the travel in superior style; and over 100 dwelling houses are being constructed, and under contract.

Our new city charter confers upon the Common Council the power of improving and opening streets, and great progress will be made in this direction during the coming season.

Real-estate is advancing rapidly, and a rise of 100 per cent in prices, may be safely anticipated this summer. A large number of Milwaukeans are becomming interested here, attracted by the unequalled rapidity of our growth, and the prospects of a rise in real-estate.

Heavy sales are making in and around the La Crosse Depot grounds, for residences, and store-houses, and a large number of buildings are going up in that direction.

The public exhibition of the pupils of School District No. 3 took place last Thursday, and gave evidence of the ability with which this noble institution is managed—some beautiful presents were made to Mr. Harvey and the other teachers, upon this occasion, by their pupils.

The foundation of the Episcopal Church of St. Marks is to be laid in a short time.—Thirteen thousand dollars has been raised toward the completion of Wayland University, and it only needs from two to three thousand more, to carry on this noble enterprise to its final consumanation. Some $25,000 has already been secured toward the endowment of this University, when the edifice is completed.

The prospects of our city, both in a business, moral, and educational point of view, are all that can be desired, and our rapid growth is giving us a commanding influence throughout the State.

Yours &c.

L. T. V.

Northwestern Insurance Co.

The Oswego *Palladium* pays a well-merited compliment to to the old North-Western Insurance Co., located in that city. It was chartered in 1832, and among the original corporators were John Jacob Astor, Daniel Le Roy and Jas. G. King of New York; Wm. James of Albany, and P. Hart, Jr., of Troy; and among its commissioners for opening the books of subscription, were Daniel Jackson, Francis W. Cutting and Arthur Bronson, of New York, and Millard Fillmore, Henry Root and Jas. Stryker of Buffalo.

Its stock mortgages represented 50 per cent. in value, of real estate, beyond the sum for which they were pledged; and that against the advice of the venerable and respected Senator, Stephen Allen, of New York, who reported the bill, and who feared that the stock could not be filled on such hard terms.

The Northwestern has paid for fire and marine losses over two millions of dollars since its organization; and has also paid its stockholders fair dividends. Its charter, to expire 1st January next, has been renewed for 20 years from that time.

Prof. Daniels in Kansas.—By the Kansas *Freeman*, published at Topeka, by our former fellow citizen, E. C. K. Garney, we learn that Prof. Daniels was invited to deliver a lecture at that place during his late visit to Kansas, a hundred of the citizens uniting in that request. He acceded to the request, and lectured in his clear and animated style, upon Geology, his favorite science, to the great delight of a large audience.

Janesville City Officers.—At the meeting of the Janesville City Council, on the 16th inst., I. H. Vermilye was elected President, T. C. Sleeper, Marshal, S. C. Sloan, City Attorney, C. H. Conrad, City Assessor. The *Free Press* was selected as the official paper by 7 votes to 3.

Libel Suits Settled.—We are requested by one of the counsel, to say that the witnesses in the case of the State vs. Beriah Brown, for libel, need not attend Court at Racine, inasmuch as the matter has been settled between the parties.

Policemen Resigned.—The entire police force of Chicago have resigned their posts, in consequence of the deposition of their Chief, Capt. Bradley, by the Common Council, for political reasons.

Fatal Accident.—A man named Elijah Manly, employed in the Paper Mill at Ann Arbor, Michigan, got caught in the Machinery on the 25th inst. and was crushed to death. He was 50 years of age and leaves a wife and family.

Wisconsin of no Account.—The Buffalo Commercial *Advertiser*, a K. N. organ, is disgusted with the conduct of its yoke-fellows in this State, in repudiating "Fillmore and Donelson;" but comforts itself in this wise:

> The step is of the slightest possible consequence any way. Wisconsin was never counted as an American State. Half of her population are Irish and Germans and the other half "Republicans."

Items from the Pineries.—The Stevens Point *Pinery* of the 14th instant brings us the following "local items."

☞ There is a great demand in this market, for oats, corn, lime, brick, good sawyers, money, servant women, fruit trees, plows, seed wheat, clover and grass seed, raftsmen, land lookers, lumber wagons, building materials, nails, glass, young cows, working oxen, green apples, cheese, butter, eggs, lager beer, maple sugar, stone-coal, tar, salt, painters oil, seasoned lumber, books and stationery, and paying subscribers to the *Pinery*.

☞ Old Wisconse that has been so quiet, for six months began to bestir himself three days ago. He is "up," and in running order. The boys are after him, with long poles, to stir him up. They are putting him under trains, and then giving him chase. They will have a long race. Hurra for old Wisconse and the Pinery boys.

New Buildings.—In a walk about town yesterday, we were surprised at the number of new buildings in progress, so early in the season; we counted twenty. The reason is, the great influx of new comers, seeking tenements. The streets are thronged with strangers.

☞ Our daily mail from Milwaukee, is a settled matter, arriving and departing regularly.

Democratic Testimony.

A correspondent of the Stevens Point *Pinery*, for whom the Editor vouches as a leading Democrat of the old school, reviews at length the political transactions of the past winter, and censures with indignant severity the course pursued by the majority of the so-called "Democratic" presses and members of the Legislature. We copy a part of his communication;

> Our party has been through a Judicial investigation, which was in pursuit of alleged frauds upon the Palladium of our liberties—the Elective Franchise. I say "our party," because the party officers in power, did it! the party members of both Houses of the Legislature defended it, and most of the party Papers in the State, sustained it and upheld it, and denied that any tribunal had authority to go behind the finding of the notable Canvassers. As a party then, we have been identified in a transaction that has turned out to be a corrupt fraud and forgery. The most of our Democratic members affect to believe otherwise. It is too true and shameful a transaction to attempt any longer to defend. Our party has already been scorched by a reckless course of policy and action, led by demagogues, until it begins to smoke and smell in the nostrils of the people. $35,000 missing from the Treasury! Subsidized presses all over the State quarrelling with the Administration of President Pierce for not following the counsels and yielding to the demands of these late defunct powers, State and Congressional—while fraud and forgery were necessary resorts to sustain that influence in power.
>
> We have stood it as long as it will be safe for us as a party to do so, and much too long for our credit and honor. There have been, however, a few out-spoken Democratic sheets which have not yielded assent or support to the wrong or its abettors. Never should the democratic cause or principles resort to trickery, falsehood or deception, to maintain itself before the people; as in private transactions, as in religion, as in every duty of man with man, truthfulness, promptness and honesty is counted necessary and commendable, so also in politics should be; Democracy teaches nor inculcates no other proceeding, and needs not the bolstering of any thing false, foul or unfair; and it is only resorted to by aspiring office-seekers, and their underlings when the *wrong man* or men are to be foisted upon the party as their candidates.
>
> Mr. Editor, politics has become in some men's hands a *mere game—a trade*, and it is desperately played sometimes, and too successfully for the honor of the party or the interest of the State.—I hope we have learned a lesson within the *last two years* that will be profitable to our party, and healthful to the public good.

Seward's Kansas Speech.

> It will not be denied by any candid, fair minded reader, that Mr. Seward's recent speech on the Kansas question is one of the ablest speeches that the Senate has listened to, or that the people have read on the subject. It is a calm, dignified, patriotic, statesman-like document, and one in which we find little or nothing to censure. That it truly represents the sentiment of the great body of the people of the North, it would be false and foolish to deny. We are constrained to express these honest opinions of Mr. Seward's speech, in justice to ourselves, as well as to him. The fact that we do not belong to "the Seward party," or to any other man's party, does not prevent us from giving credit, when credit is due, even to the most conspicuous of our political opponents, and to confess the honest truth, we do not find anything in Mr. Seward's views of the Kansas imbroglio very widely different from our own.
>
> Mr. Seward opposed the repeal of the Missouri Compromise, so did the Mirror; he now prefers that Kansas should come into the Confederacy a Free State, and so does the Mirror. Agreeing with him, therefore, in these main points, we should be ashamed to be ranked among Mr. Seward's revilers, merely because we happen to differ with him on some minor matters. In private life, Mr. Seward is a gentleman without reproach or blemish; and in his more recent public course, even his political enemies, if they were honest enough to confess it, find far more in him that is worthy of commendation than of censure; and the Mirror is independent enough to say so.—*N. Y. Evening Mirror.*

This handsome compliment from the N. Y. *Mirror*—a paper that has always been politically hostile to Gov. Seward—is one of the many indications of the steady progress which that distinguished Senator and eminent Statesman is making in the confidence, the good opinions and the admiring regard of his fellow-countrymen.

For the Sentinel.

A Correction.

Messrs. Editors:—In your paper of yesterday there appears a statement of which the following is an extract:

"Pretending to be a Policeman. A complaint was tendered by Policeman Fisher against a man named Conrad Seaman, the officer charging him with having represented himself as being a Policeman, and arresting a man named Landgraph, and taking from him a $1000 note of hand, due in a short time."

I find therein several miss-statements. In the first place, my name is not Conrad Seaman, again, the circumstances were simply these:

On the evening of the 16th inst., I was in company with Mr. Miller in a Saloon on Chesnut St. Hill, where Landgraph and another man from Chicago attacked Miller, trying to whip him. They soon discovered that Miller was too much for them, when Landgraph run out of the room, perhaps after some instrument. Miller was now attacked by the other man, and on Landgraph's return Miller was struck by the latter with a chair. I then said to them "Give it up, or I will arrest you all."

On discovering that Miller was bleeding badly, I advised him to go and get his wound dressed, and then fetch a Policeman, and promised him that I would watch the man until he returned.

Meanwhile both ran out of the bar room—of course I followed them—then Landgraph presented to me a note, asking if I knew the name of the maker, and gave me the note, which I intended to keep until I should have the man secured.

THE ONLY MEDAL AWARDED

BY THE NEW YORK EXHIBITION TO THE English or Foreign Sauce Manufacturers, has been obtained, amongst numerous competitors, by LEA & PERRINS, for their

WORCESTERSHIRE SAUCE,

whereby further testimony is afforded of its being the best Sauce extent.

The celebrity of this Sauce has extended to every quarter of the globe, and its efficacy in promoting the general health, is becoming daily more observed and acknowledged.

In the United States it is held to be the most agreeable condiment, and is esteemed for its tonic and invigorating properties, its habitual use enabling the stomach to digest the food.

On the Continent of Europe, these qualities have been testified to by a gentleman, who writes to LEA & PERRINS thus: "I have carried a bottle of your Worcestershire Sauce in a tour I have just completed through Spain and Portugal, and believe I owe my present state of health to its use; your Sauce is stomachic, and I think medicinal. I can, with truth, say there is nothing in a traveller's baggage so essential to the comfort, at least in these countries, as your Sauce."

In India, also, where it is found at the mess of every regiment, a medical gentleman writes from Madras to his brother in the same profession at Worcester, in the following terms: "Tell Lea & Perrins that their Sauce is highly approved in India, and that it is, in my opinion, the most palatable, as well as the most wholesome, Sauce made."

This Sauce is suitable for every variety of dish, and the universal demand which its excellence has created has led to many imitations being offered to the public, under a variety of names, but the genuine may be known by the names of "LEA & PERRINS" being impressed upon the patent metallic capsules, or patent glass stopper of the bottle, as well as the labels and wrapper.

☞ AS A SPRING AND SUMMER MEDICINE, Carter's Spanish Mixture stands pre-eminent above all others. Its singularly efficacious action on the blood; its strengthening and vivifying qualities; its tonic action on the Liver; its tendency to drive all humors to the surface, thereby cleansing the system according to Nature's own prescription; its harmless, and at the same time extraordinary good effects, and the number of cures testified to by many of the most respectable citizens of Richmond, Va., and elsewhere, must be conclusive evidence that there is no humbug about it.

The trial of a single bottle will satisfy the most skeptical of its benefits.

Hall's Patent Brick Machine.

THE BEST NOW IN USE FOR MOULDING BRICK.

It is simple in its construction, durable and easily kept in order, and can be worked by men of the most ordinary capacity. More than six hundred machines are now in use, and over five hundred millions of brick are annually made with them throughout the United States—an evidence that this machine has been thoroughly tested in all kinds of clay, and proven itself superior to all others. Twelve thousand is an ordinary day's work—although more can be made—employing only one horse, one man to mould, one to temper the clay, and three boys to carry off the brick. Certificates of their efficiency can be shown from all parts of the country. Machines for sale by B. C. TAYLOR, Dayton, Ohio, and J. G. BEMLY, Milwaukee Price $300, with tempering shaft and set of five moulds, including right to use.

DAILY SENTINEL.

Milwaukee, Saturday Morning, April 19, 1856.

CITY MATTERS.

Closing of the Mails.

THE PUBLIC are notified that the Mails for the North, South, East and West close at 10 P. M., and for Madison, Waukesha, Whitewater and the East and South, at 1 P. M. J. A. NOONAN, P. M.

Milwaukee, March 27. mar27dtf

POLICE COURT, APRIL 18.

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

Christian Klein was required to give sureties to keep the peace for two months; having threatened to "lick" a man who owed him money and would not pay him.

In yesterday's *Sentinel* we noticed the charge against a man named Seaman "personating a policeman," and our mistake was in giving the man's name as Conrad Seaman; the name of the accused was J. P. Seaman. We correct this at once, as Mr. Conrad Seaman has always borne an unexceptionable character, and has never to our knowledge appeared as a defendant in the Police Court.

THEATRE AT YOUNG'S HALL—THORNE'S STAR COMPANY.—Our Milwaukee public have now enjoyed several opportunities of testing the quality of the "Star Company" with which Mr. THORNE has opened Young's Hall, and the general verdict is one of high praise. It is rare indeed, that so good a company is met with. The style in which the leading pieces are performed would win applause, and ensure success, in any of the Atlantic cities. "The Honeymoon," and "The Little Treasure," on Thursday and Friday, were admirably played, and drew forth the enthusiastic applause of the audience. The "bright, particular" star of the Company is Miss EMILIE THORNE, who is already an established favorite with the public. She is young, pretty, graceful, and always at home in whatever character she undertakes. Mrs. THORNE is equally good in the elderly lady parts, and Miss COGSWELL, who has great personal attractions in her favor, sustains herself creditably. Of the actors, Mr. THORNE himself, Mr. LEFFINGWELL and Mr. LEWIS MESTAYER, take the leading parts, and are all three excellent in their several lines.—The orchestra, under the lead of Mr. STEVENS, is a good one. The scenery and dresses are well got up. The Hall itself is spacious and well-lighted. Here are abundant reasons, then, why Mr. THORNE should do well, and if he meets with liberal encouragement, he designs to build a handsome Theatre here. We hope, therefore, to see him generously sustained in his effort to cater for the public amusement.

The bill for to-night embraces the popular plays of "The Lady of Lyons," and "Fortune's Frolic." Miss EMILIE THORNE as *Pauline*, and MESTAYER as *Claude*.

MILLINERY AND DRESS MAKING.—It will be seen by their advertisement that Miss GOODING and Miss JACKSON have taken the convenient store recently occupied by Miss Morris in the Millinery and Dress Making business, and they invite a continuance and increase of the patronage of the establishment.

"LOOK FOR THE BEE-HIVE."—Messrs. JACKSON & LUXTON give 21 cogent reasons, in our advertising columns this morning, why the public should purchase goods at their elegant and well-filled store. They are making a variety of improvements which will make theirs one of the very handsomest stores in the city.

YOUNG AMERICA BOWLING SALOON.—The Young America Bowling Saloon, next to Davis' Livery Stable, has just been refitted, and is in first rate order. The landlord is one of the best adapted to his business that can be found. See his advertisement in another column.

KANSAS LECTURE.—Rev. Mr. LOVEJOY lectures on Kansas to-morrow evening at the Methodist Church on Spring Street. He is engaged in raising the means to establish a church of that denomination in the new Territory.

I shall continue to publish a weekly report of sales as heretofore, and would recommend all who are interested in Real Estate, to take the paper containing my said report and file the same, by which means they will always be familiar with, and have a correct list, of all transactions in this line of business. My report is got up with the greatest possible care, and is therefore correct and reliable in every item, which, it appears, is not the case in any other, as will be seen by a comparison with mine.

NEW YORK, April 17th.

It has already been stated that the members of the Conference have still to perfect a number of secondary arrangements essential to the new state of relations to be established in the East—*Le Nord* says the organization of the Principalities is one of these reserved subjects, and the *Debats* points out as another, the special regulation for the free navigation of the Danube.

MARSEILLES, Tuesday.—Aalif Bey embarked last night from this port bearing the treaty to Constantinople for the ratification of the Sultan. A French officer of rank also embarked on a special mission to the Sultan from the Emperor of the French.

Admiral Symonds died on his passage from Marseilles.

BERLIN, Tuesday.—The announcement of the conclusion of peace in the Prussian Chambers yesterday was received with cheers. Accounts were received of the death of Sir Charles Hotham, Governor of Victoria. The British German Legion which has been raised by Baron Shitterheim to meet the exigencies of the war will be sent to Cape of Good Hope, now that peace is concluded. At the Cape they will Garrison the Colonies, and the officers and men will receive grants of land for their military services.

The Bank of France has reduced its rates of discount from 6 to 5 per cent.

The *Moniteur* contains the following despatch from Pellessier, dated Sebastopol, 23d:

"This morning the French, English and Sardinian armies and fleets fired salutes of 102 guns each, in honor of the birth of the Prince Imperial.

"During the day the Commander-in-Chief of the English and Sardinian armies came officially to offer me their congratulations.

"There have been illuminations in the camp, and the Russians illuminated their line on the Inkerman."

Congressional News.

WASHINGTON, April 18.

SENATE.—On motion of Mr. Seward, the resolution was adopted directing the committee on post offices to inquire into the expediency of establishing a uniformity of postage throughout the Union.

On motion of Mr. Sumner a resolution was adopted requesting the committee on patents to consider the expediency of amending the patent laws, so far as to allow the inhabitants of neighboring British provinces to enjoy the benefit of these laws on an equal footing with the people of the United States.

The bill to authorize the executive to facilitate the construction of a railroad or telegraph line from the Mississippi River to the Pacific, was considered. Mr. Miller asserted that the government had the power to construct military and other roads through the territory of the U. S.—Congress frequently made appropriations for such purposes. $34,000 he said had been expended on reports and surveys, which show that there are three or four practical railroad routes to the Pacific. He had no preference for either. His main desire was to obtain the construction of a road from which branches would emanate, as the necessity of commerce demanded. The Committee having the subject in charge, proposed that the Secretarys of War and Interior, and P. M. Gen'l, shall advertise for bids, with authority, under direction of the President, to select the one most favorable, according to his calculations.—The money so invested would yield 15 per cent. per annum, calculating the number of passengers back and forth at 6000 yearly. The decrease in time and travel will amount to more than a saving of $10,000,000 per annum. He exhibited the great mineral wealth of California and the extensiveness of the Pacific coast, arguing the necessity of such road for the purposes of commerce, as well as the protection and maintenance of the Union. Mr. Seward obtained the floor, and the further consideration of the bill was postponed to the 28th inst. 16 private bills were passed.

HOUSE.—Mr. Haven, of Buffalo, submitted two letters addressed by the Secretary of the Navy, to Mr. Benson, chairman of the Naval Committee, in which he invites members of Congress to visit the new steamer Merrimac, at Annapolis, also saying that the President would leave Washington this P. M. and would wait the arrival there of the morning train before going to the steamer.

Mr. Washburne of Ill., moved that the House adjourn till Monday. Adopted.

Committee on elections reported against the right of Mr. Bird to retain his seat as a delegate from Nebraska, and in favor of Hiram B. Bennett. The deficiency appropriation bill was considered without final action.

A letter from Pernambuco, of March 15th, states that the Cholera was raging there—210 having died.

The Indian War in Oregon—Our Difficulties with Great Britain—Washington news.

WASHINGTON, April 17.

The Indian War.—Among the official documents received from Oregon, is a letter from Joel Palmer, Superintendent of Indian affairs, who, confirming the statement of the Governor, says the difficulties in the southern part of the Territory is wholly attributable to the whites. The Indians in that district have been driven to desperation by acts of cruelty against them.

Great Britain and our Country.—Mr. Dallas, our Ambassador at London, in a letter just received, says the subject of the difficulties between England and the United States, will be fully discussed in Parliament. He is led to believe that the discussion will not be void of acrimony towards this country, but is prepared to bear it like a philosopher. He mentions particularly numerous acts of courtesy offered him by the members of the British Parliament, and cabinet, and regards these manifestations expressive of a public disposition towards this country.

Nicaragua.—It is said that despatches from Col. Wheeler to this government mention that Col. Schlessinger's retreat was not a defeat by the Costa Ricans, but a stroke of successful policy, superinduced by the large and overwhelming force of the enemy.

A despatch has been received by a gentleman of this city, that North Carolina has instructed her delegates to the Cincinnati Convention to vote for Gen. Pierce for the President, and Mr. Dobbin for Vice President.

The House committee on territories will report in favor of the admission of Kansas with her free State constitution.

New Commissioner of Pensions.—It is said the President will tender the appointment of Commissioner of Pensions to D. T. Disney, of Cincinnati, Ohio. It is extremely doubtful whether he will accept.

DEFEAT OF THE FILLIBUSTERS.

Rumored Duel at Washington.

SPEAKER BANKS DECLINES NOMINATION FOR PRESIDENT!

NEW YORK, April 18.

The *Courier & Enquirer* contains the following letter to a merchant in this city, from a reliable correspondent in Costa Rica, when a notice arrived of the first victory gained over Walker's people.

It is said they are between the Costa Rica army, and a country where there is not a drop of water, so that they are in a bad way unless they can re-form and cut their way through. One of the party who came overland from San Juan Del Sud, fell in with a party whom they murdered, and then came to Santa Rosa. The prisoners were condemned on account of the aforesaid murder.

The French have orders to treat Walker and his men as pirates, if caught on the water.

They say 4,000 fillibusters had taken possession of the Hacienda of Santa Rosa, a very advantageous position, situated on the top of a hill and surrounded by stone walls. The Costa Ricans in a force of 500, fired once only, and then rushed in with bayonets and cleared them out in fourteen minutes, and took possession of the Ranche. Several letters have arrived besides the army despatches, all agreeing with the circumstances, so that beyond a probable exaggeration of the number of the Yankees, there is no doubt of the victory. It took place at 4 o'clock in the P. M., and they were to be pursued next morning by mounted troops.

A DUEL.—The correspondent of the *Times* telegraphs from Washington that the challenge was not yet passed from Col. J. H. Lane to Senator Douglass. It is understood it awaits an answer to Lane's demands for a retraction of Douglass' offensive language.

Speaker BANKS positively declines the nomination for President by the Republicans. Moses H. GRINNELL, of New York, is prominently mentioned for the latter.

The Wakemanite Murder.

NEW HAVEN, April 17.

The jury in the trial of Samuel Sly, the widow Wakeman, and Thankful Hersey, for the murder of Justus W. Matthews, this P. M., returned a verdict of not guilty, on the sole ground of insanity. The parties were all tried under one indictment. The result was generally anticipated.

GREAT BARGAINS in REAL ESTATE

Chance to buy Timbered Land Cheap.

THE SUBSCRIBER, being afflicted by a pulmonic difficulty, and thereby incapacitated for active business, offers for sale his entire Real Estate, situated 8 miles from the north of Racine, and 15 miles south of Milwaukee, on the Lake Shore, in Wisconsin, and consisting of 500 acres of first quality of heavy timbered land, with 125 acres under cultivation; one-half in Winter Wheat.

Those who know the said premises, need no further recommendation, as it is known to be, and has ever been considered, one of the *very best* pieces of property in the State, being a sufficient distance from Racine and Milwaukee to make it a good point for business, while it has nearly all the advantages either of these towns possess, it being upon Lake Michigan, and having in connection with it a good and substantial pier, 600 feet long, running into deep water, and also on the Lake Shore Rail Road, where is an important station for wooding and watering, all trains stopping. The Pier and Station being but half a mile apart, the one on the east and the other on the west verge of the premises, while equal quantities of the Land is north and south. The land is well watered, having four living streams of clear spring water running across it and into the Lake; an excellent well and cistern of water are also provided at the spacious and commodious dwelling house.

There are some eight cheap Dwellings, for renting, also a Blacksmith Shop on the premises, which is tenanted by a first-class workman. An orchard, and other improvements have been made; an excellent Saw Mill is in operation at the Rail Road Station. A Post Office (Lamberton) is established, and a store has been kept by the proprietor, but is now closed preparatory to leaving.

Timber at this point is a rare attainment, and in rapidly increasing demand. Not a stick, from the choicest timber and lumber for vessels, stave, wharf and Rail Road purposes, down to the meanest bit for fire-wood, is without its ready and high value in gold; while the soil for cultivation cannot be excelled, this being the *Premium Winter Wheat* Farm of the State, as awarded by the State Agricultural Society for the last year, (1855.)

The facilities for the manufacture of the celebrated Milwaukee Brick are ample, at the Pier, and the work can be prosecuted at much less expense than in the city.

In short, there is every inducement and facility offered in this place to any man, or men, of energy, to realize any anticipations they may have in western enterprise and progression.

We are bold to say there never was a fairer field opened to settlers or capitalists.

The land is so located as to admit of being divided into 2, 3 or 4 farms, if desired, and all be well accommodated to roads, schools, &c., and none half a mile from the Rail Road Station, and all but one upon the Lake.

We would add, that a healthier location can not be found upon the Lake, as the water is excellent, the soil dry and arable, with no marshes or swamps adjacent to invite disease, while every thing conspires to make it one of the most desirable places in the world.

The whole will be sold on the most reasonable terms, and opportunity given to allow it to pay for itself.

N. B. It will be sold with or without the village plat as desired.

Men coming west to invest money, either to occupy or on speculation, will find it much to their interest to give us a call before purchasing elsewhere.

For further particulars enquire of the subscriber at Sangerfield, Oneida Co., N. Y., by mail, or otherwise of Wm. E. Lamberton, near the premises; Hon. Wm. E. Wooding, Racine; Messrs. Littell & Baker, Milwaukee; or Capt. R. Prindiville, Chicago, Ill.

F. M. LANE'S

PERMANENT GLOSS PAINT.

Important Improvement in Painting!

A PERMANENT GLOSS PAINT for interior work has long been a desideratum. All paints prepared from linseed oil, will rapidly turn from the lightest and most opposite tints to the yellow color of the oil itself; the change being the more rapid as the paint is excluded from the full light of day.

The subscriber, after a sufficiently long experience in its use, can recommend it as the only Gloss Paint in which this important defect is effectually remedied. This beautiful paint can be applied of any color, from the purest white, resembling enamel or porcelain, to all the different varieties of tints, suitable for private dwellings, Churches, Hotels, &c., whilst in brilliancy and richness of surface it surpasses all other paints; it possesses superior advantages in retaining permanently even the most delicate colors with which it is combined.

Also, Plain and Ornamental Painting, decoration of Private Dwellings, Churches, &c., Sign and Fancy Painting.

In order the better to do this, the proprietors have erected a large brick Foundry in addition to their former premises. They have added to their stock of Tools a large Planing or Shaping Machine, three Lathes, and a Machine for making bolts, and are now putting in a Steam Engine of — horse power to drive the whole, thereby adding to the former facilities for the successful carrying on of the Foundry, Machine, Engine and Blacksmithing business. In regard to the character of the work got up by this

The Oldest Establishment in the State,

the Proprietors refer to that in successful operation through the country as their best recommendation, as it can speak for itself. All they can say is, that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man.

They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principle.

They have always on hand a large stock of BRASS WORKS, such as GUAGE AND CYLINDER COCKS, OIL CUPS AND COCKS, and STEAM WHISTLES. Also TURTON'S FILES, which they will sell at the lowest cash price.

They are also Agents for EASTMAN'S PATENT STEAM GUAGES, which are well worth the attention of all those who use Steam Engines.

In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.

Their motto is, "*Excelsior!*"

FIRE INSURANCE COMPANY.

OFFICE IN MARTIN'S BLOCK, MILWAUKEE, WIS.

Capital over $165,000, *in Cash & Premium Notes.*

THIS COMPANY offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments, at a cost to the property insured, not exceeding two mills on the dollar.—Its business is principally confined to this State.

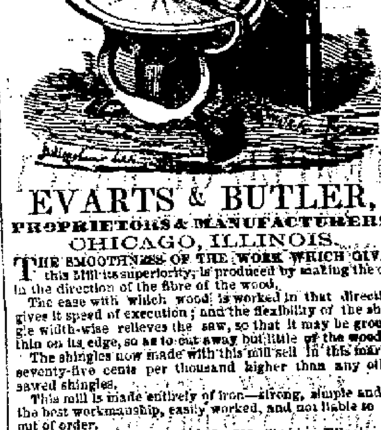
EVARTS'

PATENT SHINGLE MILL



EVARTS & BUTLER,

PROPRIETORS & MANUFACTURERS,

CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution; and the flexibility of the shingle width-wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market seventy-five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

EAST WATER STREET,

HAVING recently received an extensive stock, and daily adding to it the latest styles of

SPRING GOODS,

Together with an enormous stock of DOMESTICS, purchased in the Fall at very low figures, with a view of being prepared for the EARLY SPRING TRADE, without being subjected to the exorbitant rates of Rail Road charges on such goods as are sold at a fraction above Eastern cost, we are prepared to show, and will be most happy to sell the

MOST COMPLETE AND EXTENSIVE STOCK OF

DRY GOODS,

Ever before offered in the West!

Being connected with several large manufacturing establishments and importing houses at the East, giving us an advantage over any other Mercantile House in the State, and having long resided and done business in this city, and our established principles of doing business being well known to every city and country customer, to be of the most liberal nature, we flatter ourselves that we can say with safety that we consider competition quite out of the question.

We would say to

COUNTRY MERCHANTS

who design going East to purchase, that we would esteem it a favor if they would honor us with a call before leaving for New York and Boston, as we feel quite confident that we can convince them that it is to their interest to purchase in Milwaukee.

TO THE PUBLIC.

THIS is to certify, that in consideration of the many misfortunes which have attended me in the erection of my Saw Mill, at Mapleton, in the town of Oconomowoc, Waukesha County, I deem it proper and in justice to say, that the troubles arising in the starting of my Mill, did not lay in the fault of the machinery or water wheel, patented by L. D. Goodwin, and manufactured by Decker & Seville, but from other causes, and I do most cheerfully recommend said water wheel, to the Milling community, as being the best wheel now in use, for driving any kind of machinery, and that it has fully come up to all the recommendations given to it. I shall take great pleasure in showing my Mill, to any one, [illegible] water wheel in the State. In conclusion I would say to all parties building Mills, to profit by my experience, and employ none but good, honest, steady and efficient Millwrights, and you will save money.
